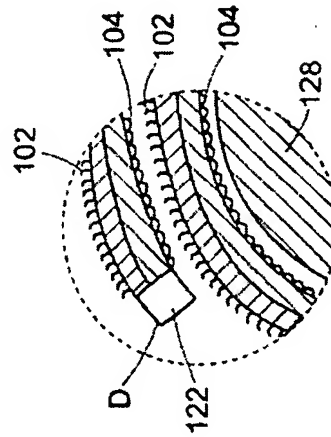

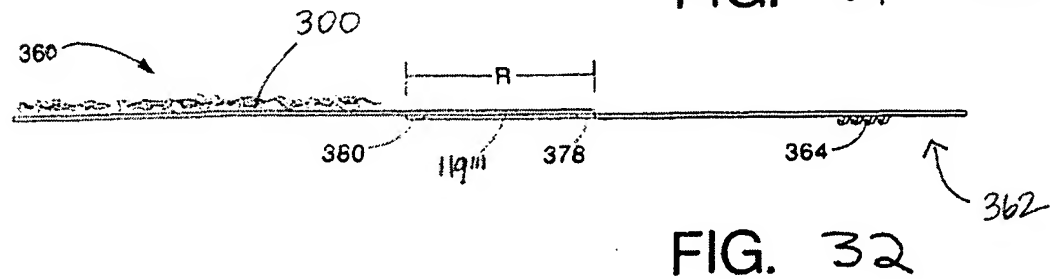

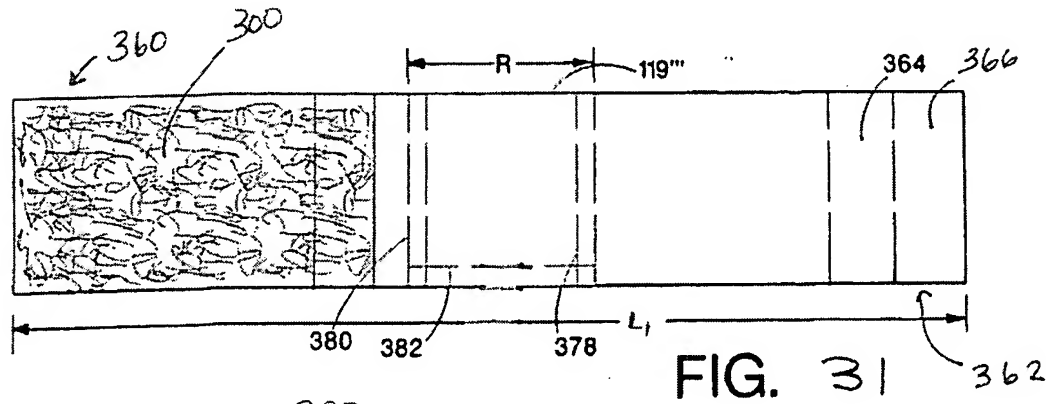

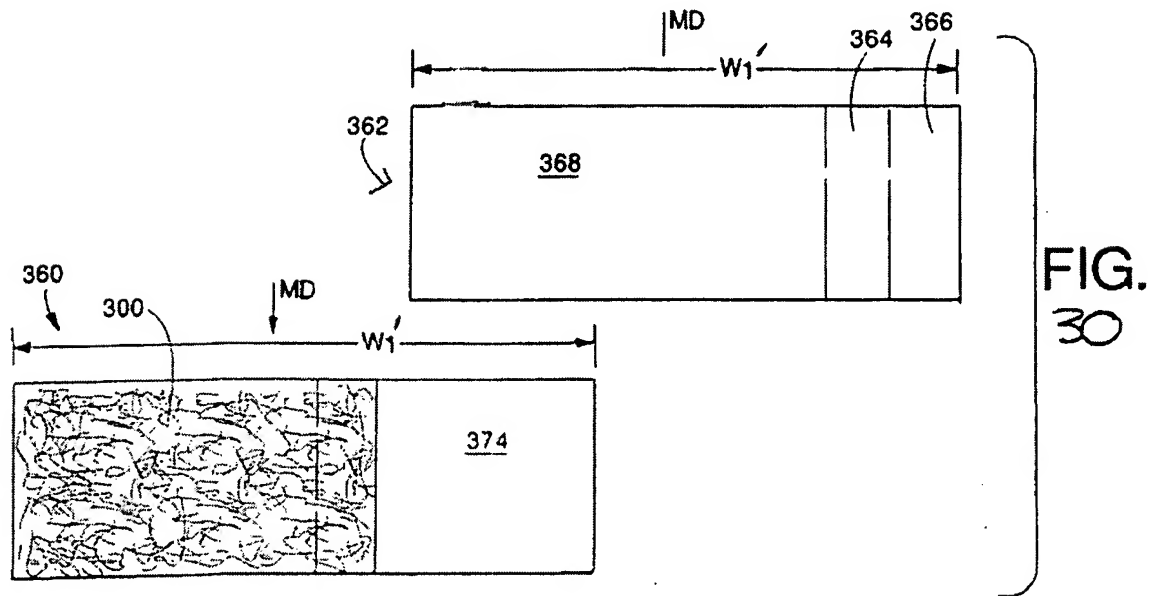

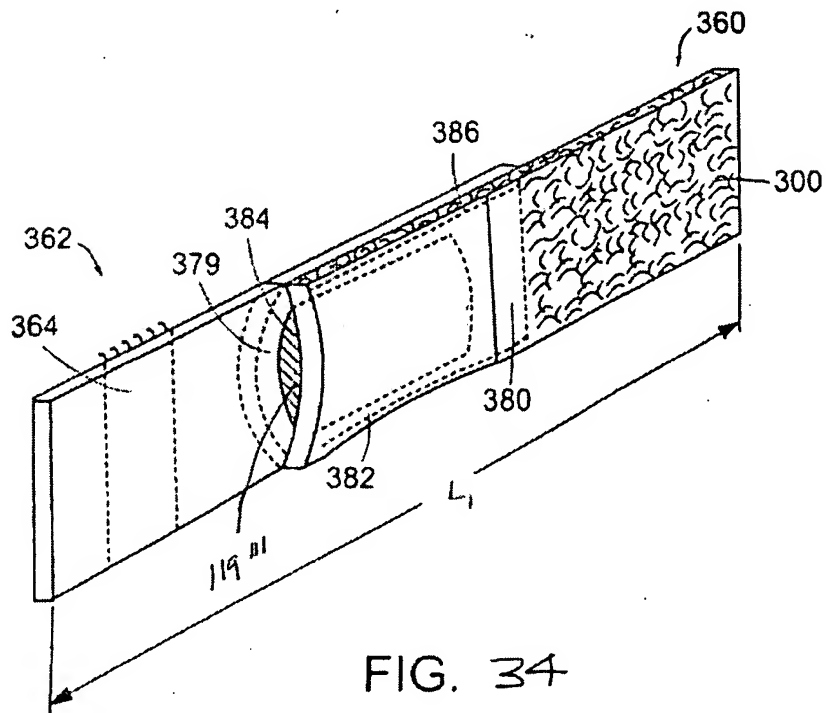

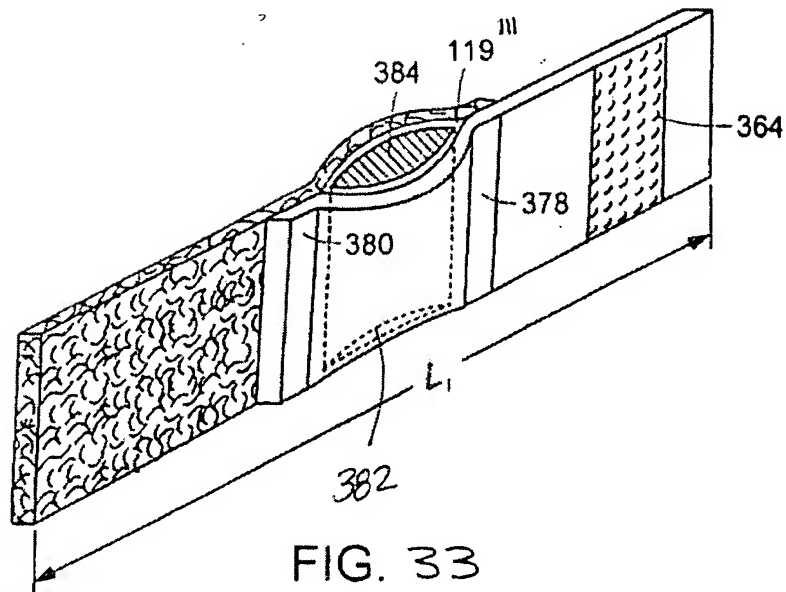

FIG. 29

A cross-sectional view of a substrate 600. A layer 602 is formed on the substrate, featuring a patterned region 604 with a width L_3 and a central portion 616. Below the patterned region, a textured layer 606 is visible, with a layer 608 on top of it. A layer 618 is also shown below the patterned region. A textured layer 609 is formed on the substrate 600.
